SUBJECT INDEX

The letters SA preceding the page number designate a special signed article; N refers to articles or letters in the Notes section.

Absorption
amino acids
from a mixture, 306
studies with cycloleucine, 311
calcium
mechanism, 45
relation to age, in the pig, 21
cholesterol
effect of sitosterol on, 72
in the monkey, 54
defect, cause of agammaglobulinemia, 134
defects, in intestinal diseases, 69
disaccharides, in man, 203
effect of neomycin on, N63
fatty acids
in steatorrhea, 268
site of, 90
gamma globulin, in the baby pig, 316
iron
in the dog, 148
relation to altitude, 18
isotope techniques for measurement of, N255
neutral fat, site of, 90
protein, secreted into intestine, 79
sugars, in infants with chronic diarrhea, 15
vitamin A, in retinitis pigmentosa, 334
vitamin B_{12}, effect of thyroid administration on, N223
vitamins, synthesized by bacteria, SA289
Accidents
rate of, in veterans who had suffered starvation, 40
Acetate
conversion to cholesterol, effect of niacin on, 23
conversion to fatty acids, in cold acclimated animals, 189
Acetyl-Aminofluorene
carcinogenic effects of, 346
Achlorhydria
in iron deficiency, 210
incidence, in British Army recruits, 164
Acidity
produced by fermentations of foods, 272
Acidosis
in tyrosyluria, 166
ACTH (*see* **Hormones**)
Adenosine Triphosphate
production in lens, effect of galactose on, 274
Adipose
tissue
essential fatty acids in, in experimental atherosclerosis, 277
free fatty acid pool in, 154
glucose uptake by, 87
loss, in rabbits fed cholesterol, 55
measurement by size of epididymal fat pad, 348
metabolism
effect of cortisol on, 278
in cold acclimated animals, 189
release of fatty acids from, effect of salicylate on, N191
storage of insecticides in, 52
Adrenal
changes, after cholesterol feeding, 107
cortex, function, in vitamin A deficiency, SA161
medulla, hypofunction, in idiopathic hypoglycemia, 240
Agammaglobulinemia
in nontropical sprue, 134
Age
children, with gargoylism, relation to mucopolysaccharide excretion, 168
advanced, carbohydrate metabolism in, N192
pineal gland, relation to carbohydrate metabolism in, 115
relation to blood cholesterol level, 36
relation to body weight, in men, 301
relation to calcium utilization, in the pig, 21
relation to incidence of ischemic heart disease at autopsy, 41
relation to magnesium requirement, in the dog, 250
relation to retention of sodium by bone, 313
Agriculture
in the Congo, SA225
use of insecticides, problems of storage in human fat, 52
Albumin
blood level, relation to hyperlipemia of nephrosis, 297
iodinated, to follow albumin metabolism, 238
synthesis, in liver, 118
Alcohol
effect on conversion of galactose to glucose, 205
Aldosterone (*see* **Hormones**)
Alloisoleucine
excretion, in maple syrup urine disease, 197
Altitude
relation to iron absorption, 18
Amino Acids
absorption, from a mixture, 306
alloisoleucine, excretion, in maple syrup urine disease, 197
blood levels
effect of progesterone on, 201
effect on hypothalamic feeding centers, 308
in idiopathic hyperglycinemia, 5
in infants, 235
catabolism, effect of progesterone on, 201
citrulline, excretion, in mentally retarded child, 197
composition, of teff protein, 310
cystine
dietary, effect on molybdate toxicity, 152
losses, in dehydration of foods, SA257
decarboxylation, inhibition by cadmium, 25
formation
from butyrate, in the cow, 141
in pineal gland, 115
glutamate, oxidation in liver of malnourished infants, 150
glycine
defect in metabolism, 5
metabolism in gout, N287

Amino Acids—(*Continued*)
incorporation into lens protein, effect of galactose on, 274
leucine
feeding, effect in idiopathic hyperglycinemia, 5
induction of hypoglycemia by, in patients with insulin producing tumors, 198
requirement for infants, 235
lysine
protein sparing action, 139
supplementation of teff with, 310
methionine
deficiency in chicks, utilization of energy, 122
effect on blood cholesterol level, 51
excretion, in maple syrup urine disease, 197
protein sparing action, 139
mixture, constancy in intestine, 79
oxidation, in liver, relation to protein intake, 280
phenylalanine, feeding, effect on brain and liver serotonin, 305
proline, oxidation, by liver mitochondria, in ethionine toxicity, 58
transfer, use of cycloleucine for study of, 311
tryptophan
deficiency, cataracts in, 245
feeding, effect on brain and liver serotonin, 305
losses, in dehydration of foods, SA257
requirement for infants, 235
tyrosine, metabolism, abnormality in an infant, 166
utilization, in nibbling vs. spaced meals, SA321
Anemia
achlorhydria in, 210
cholesterol feeding, in the rabbit, 55
fat infusion, 17
hookworm infection, N127
in mice, fed meat diets, 252
iron deficiency, in British Army recruits, 164
molybdate poisoning, 152
relation to rate of absorption of iron, 148
sickle cell, in children, growth of, 237
Antibiotics
neomycin, effect on intestinal absorption, N63
tetracycline, pigmentation of teeth by, 302
Antioxidants
vitamin E, role in inhibiting red cell hemolysis, 60
Aorta
atherosclerosis in
after liver denervation, 177
effect of vitamin B_{12} on, 213
changes
in copper deficient chicks, 206
in magnesium deficiency, 250
cholesterol esters in, relation to fat fed, 284
cholesterol in
effect of corn oil feeding on, 144
effect of elaidic acid feeding on, 79
fatty acids in, effect of cholesterol feeding on, 220
lesions, in experimental atherosclerosis, in the dog, 270
lipids in, in pigeons, relation to dietary factors, 86
Appetite
control, by hypothalamus, 26, 116, 308
on high fat diets, 294
suppressants, in treatment of obesity, 38
Army
British, recruits, iron deficiency anemia in, 164
Ascorbic Acid
losses, in dehydration of foods, SA257
requirements, following surgery, 328
Assay
alpha tocopherol, in animal tissues, 111
folacin, microbiologic, in serum, 83
growth hormone, in blood, 7
protein value, in chickens, N319
toxic factor in contaminated peanut meal, 174
Atherosclerosis
early lesion of, 207
effect of elaidic acid feeding on, 79
effect of thyroid analogues on, 103
in a carnivorous tribe, 262
in the monkey, 54, 81
in the pigeon, relation to dietary factors, 86
in the rabbit
effect of stress on, 177
effect of vitamin B_{12} on, 213
production, in hypothyroid dogs, 270
relation to nibbling vs. spaced meals, SA321
significance of blood lipid fractions in, 233
spontaneous, in swine, N158, N254
studies, use of pig for, N318
tissue levels of essential fatty acids in, 277
Availability
thiamine, synthesized by intestinal flora, 124

Bacteria
intestinal
synthesis of thiamine by
availability of, 124
relation to type of carbohydrate fed, 216
vitamin synthesis by, SA289
Barium
chloride, effect on development of dental caries, 184
radioactive, use in measurement of absorption, N255
Basal Metabolic Rate
in kwashiorkor, 9
in light and heavy eaters, 11
Beriberi
ecology of, SA193
vitamin deficiency nature, discussion of Funk's 1912 review, SA353
Bile
phospholipids, composition of, 220
Bile Acids
excretion in feces, relation to blood cholesterol level, 214
Biological Value
protein, assay in the chicken, N319
teff protein, 310
Biotin
role in fat metabolism, 143
Birth Weights
historical, discussion, 244
Bitot's Spots
occurrence in protein malnutrition, 169
relation to vitamin A deficiency, N95
Blood
changes
from fat infusion, 17
in idiopathic hyperglycinemia, 5
chylomicrons, in normal vs. heart disease patients, after fat feeding, 74
coagulation, effect of D-thyroxine on, 103
loss, in hookworm infection, N127

pressure
in carnivorous tribe, 262
relation to incidence of ischemic heart disease, 41
vessels, pathology, in infant monkeys fed vegetable vs. butter fat, 81
Body Composition
changes
after obesity and weight reduction, 348
during growth and adolescence, 266
of children
measurement by skinfold thickness, N159
of diabetic mothers, N160
of methionine deficient chicks, 122
relation to milk supply of preweanling rats, 249
Bone
calcification, effect of vitamin D on, 208
changes
from excessive vitamin D, 315
in copper deficient chicks, 206
in rabbits fed cholesterol, 55
in severe undernutrition, 48
fluoride concentrations in, 180, 293
magnesium in, in magnesium deficiency, 250
marrow, changes in fat overload syndrome, 17
maturation, in children, effect of illness on, 101
radiostrontium in, estimate by content in deciduous teeth, 146
retention of radioactive sodium by, 313
Book Notices
After A Hundred Years. U. S. Department of Agriculture. 352.
Aktuelle Probleme der Ernaehrung. Modern Problems of Nutrition Vol. II. S. Karger AG. 256.
An Evaluation of Basic Metabolic Data for Children and Youth in the United States. Dorothy Worstell Sargent. U. S. Department of Agriculture. 224.

Symposium on Proteins. Central Food Technological Research Institute, Mysore, India. 224.
The Experimental Study of Foods. Ruth M. Griswold. Houghton Mifflin Company. 320.
The Merck Veterinary Manual. O. H. Siegmund, Editor. Merck and Company. 128.

Book Notices—(*Continued*)
Unsaturated Fatty Acids in Atherosclerosis. J. Enselme. Pergamon Press. 320.
Borate
effect on development of dental caries, 184
Brain
cerebral infarction, relation to blood cholesterol level, 36
changes, in an infant with Wernicke's encephalopathy, 304
serotonin in, effect of phenylalanine and tryptophan feeding on, 305
tissue, respiration, effect of copper on, 119
Breast Feeding
importance in nutrition in underdeveloped areas, SA33
Butter
feeding
effect on blood fatty acid composition, 241
effect on development of swine atherosclerosis, N254
Butyrate
metabolism in ruminants, 141

Cadmium
dietary, accumulation in body, 25
Calcification
bone, effect of vitamin D on, 208
teeth, radiostrontium deposition during, 146
Calcium
absorption, mechanism, 45
blood levels, in magnesium deficiency, 250
excretion, from galactose feeding, 245
intake, relation to skeletal maturation, 101
ionized, in serum, relation to urinary calculi, N287
losses
from the skin, 230
in ileostomy, 172
requirements, for pigs, 21
Calculi
urinary, relation to serum ionized calcium level, N287
Calf
toxicity of contaminated peanut meal for, 174
Caloric Intake
in the Congo, SA225
Indonesian infants, 326
needs, in treatment of Kwashiorkor, 9
of lean and obese people, 11
of lumberjacks, 4
of puppies, relation to fat deficiency, 271
of Yemenite Jews, relation to incidence of diabetes and heart disease, 163
relation to blood cholesterol levels, 260
relation to body weight reduction, 294
survey, in Italy, N129
Canada
ex-prisoners of war, chronic results of, 40
Cancer
absorption defects in, 69
effects of high protein intake on, 110
from heated fats, 346
islet cells, leucine-induced hypoglycemia in, 198
Carbohydrate
dietary
effect on hepatic lipids, 211
effect on salt retention, 171
elevated, effect on body composition of preweanling rats, 249
relation of type to thiamine synthesis in intestine, 216
relation to attacks in periodic paralysis, 76
relation to blood lipid fractions, 233
restriction, for weight reduction, 294
disaccharides, digestion and absorption in man, 203
galactose
conversion to glucose, effect of alcohol on, 205
effect on lens metabolism, 274, N351
feeding, cataracts from, 245
glucosamine, excretion, in man, 138
glucose
blood levels
effect on hypothalamic feeding centers, 308
in islet cell cancer, effect of leucine on, 198
relation to gastric secretion, 84
effect on uptake of fatty acids by adipose tissue, 154
formation from butyrate, in the cow, 141
metabolism
in epididymal tissue, effect of hormones on, 87, 131, 278
in pineal gland, 115
glucose tolerance
in aged people, N192
in idiopathic hypoglycemia, 240
in infants with chronic diarrhea, 15
glycogen
in beta cells in the diabetic cat, 46
synthesis, in adipose tissue, effect of hormones on, 278
glycosyl-carrying role of riboflavin, N95
in foods, relation to caries production, 272
lactose, formation from butyrate, in the cow, 141
mucopolysaccharide
excretion, in gargoylism, 168
in fibrous lesion of atherosclerosis, 207
synthesis, effect of vitamin A on, SA161
N-acetylglucosamine, excretion, in man, 138
polysaccharide, synthesis, role of riboflavin in, N95
sulfated polysaccharides, effect on peptic digestion, N30
xylose
absorption, effect of neomycin on, N63
feeding, cataracts from, 245
Carbon Dioxide
production, in pineal gland, 115
Carboxylation
acetyl CoA, role of biotin in, 143
Caries (*see* **Teeth**)
Carotene
absorption, effect of neomycin on, N63
utilization, effect of environmental temperature on, 282
Carrageenin
effect on peptic digestion, N30
Cartilage
effect of vitamin A on, 28, SA161
Casein
feeding, effect in idiopathic hyperglycinemia, 5
Cat
diabetes in, pathology of beta cells in, 46
Cataracts
lens metabolism in, 274
Catecholamine
excretion, in idiopathic hypoglycemia, 240
Cattle
hyperkeratosis in, 339
Cereal Grains
cadmium in, 25

caries-producing potential of, 272
contamination with fungi, diseases from, 337, 339
diet, for pigs, protein sparing action of lysine and methionine, 139
teff, protein value of, 310
Chick
assay of protein value in, N319
copper deficient, connective tissue changes in, 206
effects of severe undernutrition in, 48
embryos, malformation in, from reduced oxygen tensions, 121
hemorrhagic disease in, from fungal contamination of feeds, 339
methionine deficient, utilization of energy by, 122
Children
amino acid blood levels in, 5
body fat and skinfold thickness in, N159
deciduous teeth from, radiostrontium in, 146
feeding, in underdeveloped areas, SA33
gargoylism in, mucopolysaccharide excretion in, 168
growth, effect of illness on, 101, 291
idiopathic hyperglycinemia in, 5
idiopathic hypoglycemia in, 240
Indian, Bitot's spots in, N95
Indonesian, diet survey of, 326
Italian, food intake of, N129
kwashiorkor, protein and caloric needs in treatment, 9
Malayan, kwashiorkor in, 325
mental retardation, L-citrulline excretion in, 197
pigmentation of teeth by tetracycline, 302
relations of creatinine excretion, body potassium, and muscle mass in, 136
sickle cell anemia in, growth of, 237
subcutaneous fat in, 266
steatorrhea in, fatty acid absorption in, 268
Chloride
excretion rates, day vs. night, 13
losses, in ileostomy, 172
Cholesterol
absorption
in the monkey, 54
mechanism of sitosterol effect on, 72
blood levels
effect of body weight reduction on, 260
effect of corn oil feeding on, 144
effect of elaidic acid feeding on, 79
effect of D-thyroxine on, 332
effect of exercise on, 331
effect of fatty acid chain length on, 247
effect of liver denervation on, 177
effect of nibbling vs. spaced meals on, SA321, 342
effect of partially hydrogenated fats on, 227
effect of thyroid analogues on, 103
effect of vitamin B_{12} on, 213
effect of wheat gluten lipid and methionine on, 51
in a carnivorous tribe, 262
in fat overload syndrome, 17
in low economic group in Israel, 41
in lumberjacks, 4
in nephrosis, 297
methods for lowering, 72
of infants on minimum tryptophan intake, 235
of pigeons, relation to dietary factors, 86
of the monkey, 54, 81
of tumor-bearing rats, effect of high protein intake on, 110
on high fat reducing diet, 294
on low fat diet, 100
relation to cerebral infarction, 36
relation to fecal bile acid excretion, 214
relation to incidence of cerebral vascular disease, N318
variability in, N352
deposition, in liver, after cholesterol and fat feeding, 113
distribution, in tissues, effect of corn oil feeding on, 144
esterification, by intestinal mucosa, 176
esters
in aorta, relation to type of fat fed, 284
metabolism in liver, effect of stress on, 88
feeding
effect on endocrine gland morphology, 107
effect on liver lipid composition, 183
non-atherosclerotic effects of, 55
relation to atherosclerosis in the pigeon, 86
liver, effect of choline and cholesterol feeding on, 183
metabolic pathway to cholic acid, 217
synthesis
effect of adephenine derivative on, N126
effect of niacin on, 23
effect of triparanol on, 72
in vitamin A deficiency, 92
Cholic Acid
metabolic pathway from cholesterol, 217
Choline
dietary, effect on liver lipid composition, 183
Cholyl-Coenzyme A
intermediate in conversion of cholesterol to cholic acid, 217
Chylomicrons
in normal vs. heart disease patients, after fat feeding, 74
Citrulline
abnormal excretion, in mentally retarded child, 197
Coagulation
blood, effect of D-thyroxine on, 103
Coconut Oil
feeding, effect on blood fatty acid composition, 241
Coenzymes
acetyl CoA, carboxylation, role of biotin in, 143
coenzyme A, role in conversion of cholesterol to cholic acid, 217
NAD
oxidized to reduced
during alcohol oxidation, 205
in lens metabolism, 274
role in conversion of cholesterol to cholic acid, 217
nomenclature, recommendations of Enzyme Commission, N255
pyridoxal phosphate, effect on fatty acid synthesis from acetyl-CoA, 109
riboflavin, for glycosyl carrying, N95
Cold
acclimated animals, fat metabolism in, 189
effect on utilization of carotene, 282
Collagen
changes, in copper deficient chicks, 206
deposition, in early lesion of atherosclerosis, 207

Drugs (*see also* Antibiotics, Antimetabolites)
adephenine derivative, mechanism of action, N126
alloxan, to produce diabetes in fish, N64

amphetamine, to suppress appetite, 38
chlorothiazide, effect on sodium and potassium excretion, in hypertension, 195
D-thyroxine, effect on blood cholesterol levels, 332
neomycin, effect on intestinal absorption, N63
phenmetrazine, for treatment of obesity in diabetes, 38
phenyltertiary butylamine, to suppress appetite, 38
reserpine, effect on cardiac function, relation to thyroid, 305
salicylate, effect on plasma fatty acid level, N191
spironolactone, metabolic effects of, 76
stibophen, response to, relation to diet, 187
tetracycline, pigmentation of teeth by, 302
thiouracil, effect on iodide secretion in milk, 20
triparanol, effect on blood cholesterol lowering, 72

Duck
toxicity of contaminated peanut meal for, 174

Eating
control, by thermoregulatory centers, 26
Ecology
approach to nutritional disease, SA193
Edema
cyclic, relation to carbohydrate metabolism, 171
Egg
consumption, in the aged, SA1
yolk, dietary, effect on development of swine atherosclerosis, N254
Elaidic Acid
effect on blood cholesterol and atherosclerosis, in the rabbit, 79
Electroencephalogram
changes
from hunger contractions, 344
in idiopathic hyperglycinemia, 5
in galactosemic children, 43
responses, to blood sugar changes, 308
Electrolytes
excretion, changes from cholesterol feeding, 55
losses, in ileostomy, 172
Electron Microscopy
of beta cells, in the diabetic cat, 46
Emotion
basis of obesity, 38
Energy
expenditures, in light and heavy eaters, 11
production, in lens metabolism, 274
utilization, in methionine deficiency, in chicks, 122
Enzymes
activities, effect of nibbling vs. spaced meals on, SA321
carbohydrases, in the gut, 203
detoxifying, effect of adephenine derivative on, N126
5-hydroxytryptophan decarboxylase, in liver, response to thyroid activity, 305
inhibition by cadmium, 25
invertase, intestinal, deficiency in infants, 15
liver, relation of activities to protein intake, 280
maltase, intestinal, deficiency in infants, 15
monoamine oxidase, in liver, effect of thyroid hormone on, 305
nomenclature, recommendations of Enzyme Commission, N255
pepsin, effect of sulfated polysaccharides on, N30
phytase, intestinal, effect of vitamin D on, 208
proteolytic
in cartilage, effect of excess vitamin A on, 28
release from lysosomes, by vitamin A, SA161
ribonuclease, in tumor, effect of high protein intake on, 110
sulfide oxidase, in liver, effect of molybdate on, 152
uricase, efficiency in the Dalmatian dog, 157
uridine diphosphogalactose-4-epimease, inhibition by alcohol oxidation, 205
Epinephrine (*see* **Hormones**)
Erythrocyte
hemolysis, in vitamin E deficiency, 60
magnesium levels in, 265
Eskimo
hemoglobin levels in, 252
Esterification
cholesterol, by intestinal mucosa, 176
Ethionine
toxicity, for liver, 58
Exercise
effect on blood lipid levels, 331
Eye
abnormalities, in Malayan children, 325
Bitot's spots, relation to nutritional deficiencies, 169
cataracts

Linseed Oil
feeding, effect on blood fatty acid composition, 241
Lipomatan Oil
feeding, effect on blood fatty acid composition, 241
Lipoprotein
blood levels
after liver denervation and stress, 177
in nephrosis, 297
of infant rats, fed vegetable versus butter fat, 81
of tumor-bearing rats, effect of high protein intake on, 110
Liver
accumulation of dietary cadmium in, 25
albumin synthesis in, 238
butyrate metabolism in, in the cow, 141
cancer, from heated fats, 346
changes
in fat overload syndrome, 17
in turkey X disease, 174
cholesterol deposition in, after cholesterol and fat feeding, 113
cholesterol ester metabolism in, effect of stress on, 88
cholesterol in, effect of corn oil feeding on, 144
cholesterol synthesis in, effect of niacin on, 23
cirrhosis
blood magnesium levels in, 265
galactose tolerance in, 205
denervation, effect on development of atherosclerosis, 177
detoxifying enzymes in, effect of adephenine derivative on, N126
dietary, effect on anemia in mice fed meat diets, 252
disease, in veterans who had suffered starvation, 40
enzymes, relation of activities to protein intake, 280
fat
composition, effect of choline and cholesterol feeding on, 183
deposition, in ethionine toxicity, 58
effect of dietary carbohydrate on, 211
effect of fat mobilizing hormone on, 131
effect of feeding unsaturated fats on, 51
effect of nibbling vs. spaced meals on, 342
fatty acid composition, relation to type of fat fed, 284
manganese in, 132
monoamine oxidase activity in, effect of thyroid hormone on, 305

Liver—(*Continued*)
nitrogen, effect of dietary carbohydrate on, 211
oxidation processes in, in malnourished infants, 150
oxygen consumption of, effect of copper on, 119
phospholipids, composition of, 220
plasma protein synthesis in, 118
protein, of tumor-bearing rats, effect of high protein intake on, 110
serotonin in, effect of phenylalanine and tryptophan feeding on, 305
size, in children with gargoylism, 168
sulfide oxidase in, effect of molybdate on, 152
uricase, efficiency in the Dalmatian dog, 157
vitamin A in, relation to environmental temperature, 282
Lithium Carbonate
effect on development of dental caries, 184
London
busmen, dietary survey, N62
Lumberjacks
diet and serum cholesterol levels in, 4
Lung
fat deposition in, after cholesterol and fat feeding, 113
magnesium in, in magnesium deficiency, 250

Machine Retrieval Methods, SA65
Magnesium
deficiency, in malnutrition, 335
losses, in ileostomy, 172
plasma and red cell levels, 265
requirements and metabolism, in the dog, 250
Malate
oxidation, in liver of malnourished infants, 150
Malaya
incidence of kwashiorkor in, 325
Malformation
in chick embryos, from reduced oxygen tensions, 121
Malnutrition
effects in the pig and chick, 48
in infants, oxidation processes in liver of, 150
magnesium metabolism in, 265, 335
malignant, in Malaya, 325
relation to Bitot's spots, N95, 169
Manganese (*see* Trace Elements)
Maple Syrup Urine Disease
excretion of alloisoleucine in, 197
Margarine
hydrogenation, relation to blood cholesterol levels, 227
Meat
consumption, in the aged, SA1
dehydration, problems in, SA257
diet, for mice, anemia from, 252
eating, blood lipids ane coronary disease in a carnivorous tribe, 262
Mental
retardation
in children with gargoylism, 168
L-citrulline excretion in, 197
Metabolic Rate (*see* Basal Metabolic Rate)
Mevalonate
conversion to cholesterol
effect of niacin on, 23
squalene and ubiquinone, in vitamin A deficiency, 92
Milk
consumption
in Kenya tribe, effect on blood lipids and coronary disease, 262
in Puerto Rico, SA97
in the aged, SA1
in the Congo, SA225
cow vs. human, in infant nutrition, 67
dehydration, problems in, SA257
formulas, for infant feeding, economics of, 299
iodide in, 20
skimmed, feeding in treatment of kwashiorkor, 9
supply, of preweanling rats, relation to body composition, 249
Mitochondria
liver, changes in, in ethionine toxicity, 58
Molybdate
effect on development of dental caries, 184
toxicity, 152
Molybdenum (*see* Trace Elements)
Monkey
atherosclerosis in, relation to dietary fat, 54, 81
Mucopolysaccharide
excretion, in gargoylism, 168
in fibrous lesion of atherosclerosis, 207
synthesis, effect of vitamin A on, SA161
Muscle
changes, in severe undernutrition, 48
cholesterol in, effect of corn oil feeding on, 144
mass, in children, relation to creatinine excretion and body potassium, 136
nitrogen, effect of dietary carbohydrate on, 211
strength, in periodic paralysis, effect of spironolactone on, 76
weakness, in tyrosyluria, 166
Mycotoxicoses, 337, 339

N-Acetylglucosamine
excretion in man, 138
Negro
incidence of cerebral infarction in, 36
Nerve
activity, relation to development of atherosclerosis, 177
function, in tyrosyluria, 166
neurological changes, in magnesium deficiency, 335
pathology, in lathyrism, N351
Niacin
effect on cholesterol metabolism, 23, 72
feeding, activation of ulcers by, N96
Night
excretion rates during, 13
Nitrogen
balance
importance of protein secreted into gut, 79
in infants, effect of nitrogen intake on, 105
excretion
by skin, 230
effect of nibbling vs. spaced meals on, SA321
effect of progesterone on, 201
liver, effect of dietary carbohydrate on, 211
losses, in ileostomy, 172
nonprotein, blood levels, in hypertension, 195
retention
in infants, on cow vs. human milk diets, 67
in methionine deficient chicks, 122
on vegetable diet, effect of lysine and methionine on, 139
reutilization, in sheep, 77
Norepinephrine (*see* Hormones)

of London busmen, N62
uerto Rico
nutrition in, SA97
Pyridone-3-Sulfonic Acid
effect on cholesterol synthesis, 23
Pyridoxine
effect on conversion of linoleic to arachidonic acid, 109

Rapeseed Oil
feeding, effect on blood fatty acid composition, 241

Reproduction
effect of fluoride on, 180
in vitamin A deficiency, SA161
Requirements
ascorbic acid, following surgery, 328
calcium, for pigs, 21
iodine, for lactation, 20
leucine and tryptophan, for infants, 235
magnesium, for the dog, 250
nutrients, consideration of dermal losses, 230
protein, for infants, 105
vitamins, influence of coprophagy on, SA289
Respiratory Quotient
pineal gland, 115
Reticuloendothelial System
role in lipid metabolism, 113
Riboflavin
deficiency
cataracts in, 245
in the Congo, SA225
excretion rates, day vs. night, 113
glycosyl-carrying role of, N95
Rumen
bacteria, utilization of nitrogen by, 77
Ruminants
butyric acid metabolism in, 141

Saliva
nitrogen, reutilization by sheep, 77
Salt
changes in muscle, in severe undernutrition, 48
intake
effect on development of dental caries, 184
relation to hypertension, 41
restriction
for the cardiac patient, SA1
in hypertension, 195
retention, effect of carbohydrate on, 171
Scurvy
ecology of, SA193
vitamin deficiency disease, discussion of Funk's 1912 review, SA353
Secretion
iodide in milk, 20
Serotonin
in cardiac tissue, in hyperthyroidism, 305
Serum Turbidity
test, in heart disease, 323
Sex Differences
in serotonin of heart, response to thyroid activity, 305
in subcutaneous fat, during growth and adolescence, 266
Sheep
reutilization of salivary nitrogen by, 77
Sitosterol
effect on blood cholesterol lowering, 72
Skeleton
changes
from excessive vitamin D, 315
in idiopathic hyperglycinemia, 5
in severe undernutrition, 48
deformities, in children with gargoylism, 168
deposition of radiostrontium in, measure by content of deciduous teeth, 146
fluoride concentrations in, 293
maturation
in children
effect of illness on, 101
with sickle cell anemia, 237

Skin
changes
in puppies with fat deficiency, 271
in severe undernutrition, 48
excretion of lipids by, 264
magnesium in, in magnesium deficiency, 250
nutrient losses by, 230
subcutaneous fat in children, 266
Skinfold Thickness
measure of body fat, in children, N159
Skull
changes, in severe undernutrition, 48
Sodium
diffusion through intestinal loop, 45
excretion
day vs. night, 13
from galactose feeding, 245
in fasting, 171
in hypertension, effect of chlorothiazide on, 195
losses, in ileostomy, 172
radioactive, retention of, 313
relation to attacks in periodic paralysis, 76
Sorbitol
use in diabetics, SA1
